—How to find your way in the air, *24-26
—Inventors, fatal experiments.......422
—Latin-American aviators 286
—Nassau Boulevard aviation meet..*313
—National school, English........223
—Notes.........18, 39, 139, 179, 238, 306, 360, 367, 407, 427, 475, 575
—Physical tests for aviators........550
—Wild designs in flying machines..*338
—Vaniman-Seiberling transatlantic expedition *316, *361-366, 429
—See also Aeroplanes; Balloons and Airships.
AERONAUTICS, ACCESSORIES.
—Aero map, international........*226
—Aviation motor *117-119
—Device, showing velocity........*349
—Map, French government........164
—Motors, American 6
—Motor developments, France...*117-119
—Navigating instruments 367
—Rotating motor 264
—Useful devices *346, 347, 348
AERONAUTICS, ACCIDENTS.
—Aviation sickness 18
—Causes 74
—Due to motors and fuel tanks....2, *4
—Hundred mark in aeroplane fatalities 427
—More frequent in exhibition flying..182
—Rambaldo, death 540
—Recent acidents 339
—Recent fatalities 5-75
AERONAUTICS, EXHIBITIONS AND CONTESTS.
—Atwood's flight, Chicago to New York 202
—Bennett trophy 75
—European circuit race.........*3, 130
—Gordon Bennett trophy........315
—International cup race, 1911.*170, 176
—Record cross-country flight........130
—Record-breaking flights *3
—Rodgers' transcontinental flight. 369, 449
—Transcontinental flight, lessons.....290
—Vedrines flight to Madrid.......... *3
—Danger of aerial antics........*189
AERONAUTICS, MILITARY AND NAVAL.
—Aeroplanes for dropping bombs....*388
—Aeroplanes for finding sub-marines.226
—British naval airship........*30
—Curtiss naval machines.......*331, 355
—French army aeroplanes........226
—German aircraft maneuvers........362
—Great Britain naval airship wreck *333
—Launching naval flying machine...*298
—Military aeroplanes 402
—Military machines, prizes for.....*447
—Naval service aeroplanes........384
—Naval aviation 26
AERONAUTICS, PRIZES.
—Bennett trophy *75
—For military aeroplanes........402
—Gould Scientific American prize....335
—See also Gould-Scientific American prize.
AEROPLANES.
—Adaptability to naval service......384
—Antoinette aeroplane *428, *447
—Automatic stability *213, 315
—Blériot monoplanes, new........*384
—Cost of operation........*225
—Developments *428
—Farman military biplane........*447
—Fast machines *3
—Fireproofing necessary 3
—For locating submarines........226
—Forward horizontal rudders........ 55
—Gliding experiments of the Wrights.404
—Hydro-aeroplanes, new models.....*492
—Launching from a wire........*298
—Military aeroplane competition....*447
—Mail delivery by........187, *313
—Military machines and tests......*447
—Model, directions for........*334
—Morane monoplane *3
—Motors and fuel tanks, location..2, *4
—Nieuport monoplane *447
—Perfecting in the laboratory......*340
—Pivot monoplane 428, 429
—Short biplane *428
—Sommer monoplane *3
—Stabilizers *82, 335
—Stability and adaptability........ 27
—Strength of *552
—Stress in curvilinear flights.......*189
—Testing the strength........*352
—Touring vs. exhibition flying.......182
—Tubular springs to replace rubber bands *281
—Types *170
—Weapon of warfare........*388
—Wild designs *338
—See also Aeronautics.
Aerotechnical Institute, Paris........162
AGRICULTURE.
—Arsenic, injurious insecticide...... 57
—Bacteria indicating soil acidity.... 51
—Basket willow 357
—Electricity from old mills....*182, 184
—Electricity on farms........*273
—Gasoline truck *11
—Electrified artificial rain........*173
—Meteorology for 382
—Nitrogen and the soil........167, 507
—Potassium chloride from feldspar..136
—Protecting trees from frost........188
—Wheat experiments 55
—Soil experiments with legumes..... 9
Air brake dont's for inventors....... 59
Air brakes, invention of..........13, 34
Airman's weather bureau........ 98
AIRSHIPS. See Balloons and Airships.
Alpine, glaciers, variation........ 72
Alternating magnetic field experiments 31
Aluminium powder, experiments.....*103
Ambulance with removable lining...*581
Anchor made of grapnel........*228
Anchors, home-made *84
Ancient customs *120
Anemometers 99
Animals, teaching tricks........217
Antarctic expeditions *424
ANTHROPOLOGY.
—Man of Glacial Europe........188
—Man's fossil remains........369
ARCHAEOLOGY.
—Historical hygienic exhibit.......*120
—Parthenon relic 162
Argan tree 183
ART.
—Freaks in *369
—Galleries, lighting *385
—Galleries, pictures locked to walls.554
Asiatic-Russia Railroad building..... 38
ASTRONOMY.
Assayer's motor car........*29
—Association variable star observers.484
—Heavens in July........ 10
August 104, 109
September 207
October 320
November 403
December 500
—Heavens in January (Southern)...*596
—Meteor trains *209, 275
—Notes..........10, 104, 109, 208, 320, 403, 500
—Telescope, open-tube design.......*342
—See also Astrophysics; Moon; Names of planets; Observatories; Sun; Telescopes.
—Astrophysics, Hale, George E...*23, 37
Atmospheric phenomenon, control of..167
Aurora Borealis 187
Australian rabbit problem........557
Austin dam *331, 336
"Anti-cyclone" and cyclone........222
AUTOMOBILES.
—California automobile bridges.......*11
—Commercial truck improvements....597
—Dangers of gasoline cleaning.......317
—Dangers in racing........382
—For locating mines........*29
—Gasoline traction trucks........*11
—Glidden tour and Fairmont race...379
—Glidden tour results........427
—Industrial prospects 109
—Motor trucks for mines........496
—Motor truck in the country........169
—Motor trucks and good roads....... 57
—Motor truck spike driver........*454
—Omnibuses in war........157
—Shipping across English channel...*256
—Test for chauffeurs........*29
—Trucks, many designs........*140
AUTOMOBILES, ACCESSORIES.
—Device for cleaning........*276
—Electric cranking 367
—Four-cylinder tire pump........*85
—Flexible steering column........*101
—Gasoline tank and pump........*321
—Gyroscopic stabilizer *232
—Pneumatic springs *553
—Tires, puncture proof........233
—Valve seats refaced........*317
Aviators, physical tests........550

B

Baby carriages *373
Bacteria, light-producing 91
Ball joints *84
Ball-turning device *433
Ballis heat-controlling valve........*581
BALLOONS AND AIRSHIPS.
—"Akron," launching *429
—Dirigible, British naval.......*30, 333
—Gas for filling........*316
—German military dirigible burned..312
—Probable line of development.....*185
—Zeppelin's "Schwaben" *472
—See also Aeronautics; Aeronautics, military and naval.
Banknotes, destruction of........212
Barbed-wire improvement 282
Barrett, John *48
Basket-making, willow stripper...... 33
Batteries, dry rechargeable........ 39
Bath-tub, portable 106
Beacon Hill tunnel *76
Beauty and utility........ 2
Belgjawsky's comet 368, 528, 532
Bell's ice stove........*105
Bennett trophy *75
Bicycle, track inspector's........*207
BIOLOGY.
—Bacteria, light-producing 91
—Frog eggs, artificially fertilized....182
—Living matter from non-living....*231 236, 272, 285
—Mutation theory of descent.......*423
Bird's nest, edible........*386
Blériot, Louis *355
Blériot's new monoplanes........*384
Blood-transfusion *123, 129
BOATS.
—Launching in China........*11
—Motor boat race of 1911........*254
—Yawls, crossing the sea........*28, 37
Bobbin winder *84
Bombs analyzed by chemists........*100
Bombs from aeroplanes........*388, 492
Boston subway tunnel........*76
BOTANY.
—Bessey, Charles Edwin........*594
—Mutations, artificially induced..... 42
—Starch without photosynthesis..... 71
—Vries, Hugo de........*423
Brace for planer........*191
Brakes, fly-wheel, for printing presses, *311
BRAKES. See Air-brakes.
Breguet, Louis *337, 355
Bridgeport railroad wreck...74, 114, 167
BRIDGES.
—Automobile bridges, California.....*11
—Bulkeley river Indian bridge......*207
—Indian cantilever bridge........*207
—Panama Canal *597
—Quebec bridge competition........490
—Repairing by injecting cement.....379
—Transporter bridge *549, *550, 557
British frigate "Lutine"........473
Brooks's comet 115, 227, *274, *368
Brown, A. E........*58
Bucket dredger, Panama Canal......*405
Budget exhibit 332
Buffington, A. R........*257
BUILDING CONSTRUCTION.
—Cement walls, cast........*93, *97
—Woolworth building *113, 119
Bunkering steamships *269, 274
Burns, remedies for........228
Button, shoe, remover........*12

C

Cable, new design for submarine....*232
Cactus used in whitewash........422
California automobile bridges........*11
California "Stone Forest"........*11
Campaniles, medieval and modern..*1, 6
Camera. See Photography.
CANALS.
—For irrigation *144
—New York's state barge canal....*277
—Reclamation service *146, 148
—Suggested use for irrigation.......315
Cancer, recent research........40, 68
Canyon City, sky-line drive........*442
Cards, machine for dealing........*281
Catalysis *248, 260, 262
Cattle, disease from parasites........227
Carrel's blood transfustion.....*123, 129
Cast-iron, how to weld........*276
CEMENT.
—Bridge repairing 379
—Cement gun 280
—Mica for surfacing........427
—In New York state barge canal..*277
—Walls cast on the ground.....*93, *97
Chanute, Octave, and H. T. Ricketts.275
Chamberlain, Eugene Tyler........*44
"Chaparral" 197
Chartreuse, manufacture *577
Charts for aerial navigation.......*24-26
Chauffeurs, tests for........*29, 167
CHEMISTRY.
—Analysis, new method........*574
—Applied chemistry, international congress 244
—Application of electric energy, *243, 252
—Artificial rubber produced........245
—Bombs analyzed *100
—Catalysis *248, 260 262
—Chemical testing of materials.....*246
—Crystallization experiments *560
—Earning power 476
—Growth of industrial........476
—Electro-chemistry, principles of, *243, 252
—Food preservatives 101
—Industrial opportunities *249, 262
—Laboratory, industrial testing......595
—Laboratory supplies 245
—Materials, testing *246
—Uneconomic rules 45
—Nernst, Henry Walter........*271
—Training for factory foreman.*253, 263
—Physical chemistry, developments.*271
Chicago railway terminal........*80
Children, preserving songs of.......*553
Chinese method of boat launching...*11
Chinese wood oil trees........507
Cholera, history of present epidemic.169
Cities, largest, population........*496
"City beautiful," movement toward. 2
Cistern, improvised chain........*317
Clam digging 564, 584
Claw-hammers, nail-holder for.......*32
Clay-eating, West Africa........408
Cloth pinions 321
Clouds, albedo of........ 74
Clouds and the moon........341
COAL.
—Use and waste........*138, 150
—Right and wrong way of mining..206
—Increase of output........247
—Anthracite coal production........229
Coil springs, guide for winding.....*497
Coliseum, spirit of, editorial........382
Columbian mahogany 47
COLOR.
—Earth colors 336
—Of living objects in nature........406
—Source of pigments........ 98
—Standard black *300
Columbia University 325, 596
Commerce between South America and United States........490
COMETS.
—Belgjowsky's comet *368
—Difficulties in plotting orbits......*320
—Quenisset comet *368
Compass for aerial navigation.....*24-26
Compressed air, apparatus........*300
Compressed air, cement building.....280
Concrete. See Cement.
Confederate patent, discovered......*413
CONGRESSES.
—Aerial law, international........122
—Applied chemistry, international, 72, 244
—International hygienic exposition..*120
—Protection, industrial property.....187
CONSERVATION.
—Coal, use and waste........*138, 150
—Editorial comment 136
—Fishery resources *149, 154
—Of forests *135, 137
—Of humanity 206
—Of oil and natural gas........*142
—Turpentine industry *383
—Waterfalls 83
Cork varnish for ships........ 7
Corporations and the inventor.......*448
Cosmic speculation 167
Cotton-carding engines *592
Cotton-picking machine *600
Crank for engines, to make........*276
Crile's blood-transfusion 123, 129
CRIMINOLOGY.
—Finger prints *166
—Photographic miniature projection apparatus *209
—Science and anarchists' bombs....*100
Crozier, W. *257
Cuntz, ocean telephone table........*232
Curie, Marie Sklodowska........467, *471
Curtiss, Glenn H........337, 355
Cuttlefish farms 178
Cyclone and "anticyclone"........222

D

Dairy appurtenances 173, *281
DAMS.
—Austin dam, destruction.....*331, 336
—Built by Reclamation Service.*144-148
—Legislative control *331, 336
—Movable dam of the bridge type..*277
—Movable wicket dam........*204
—Roosevelt dam 131, 144
Degeneration of race, American......136
"Delaware," U. S. S........*514
Derelict destroyers *41, *51
"Deutschland" *424
Devil-bird, cry of........171
Diagnosis of the heart, electrical....*81
Diesel engine 314, 539, 584
Dirigibles. See Balloons and Airships.
Distillery, oldest *577, 585
Dorset, M. *257
Doutre automatic stabilizer........*213
Drafting devices *124
Drag, split-log 130
Dreadnoughts. See Warship.
Dreams that came true........ 70
DRILLS AND DRILLING.
—Drilling compound *433
—Drill post, substitute........*32
—Flanges *317
—Home-made drill *433
—Ratchet drill *124
—Trepanning drill *580
Duncan, Robert Kennedy..*249, 260, 262
Duvel, J. W. T........*257

Ice machine *105
Ice palace 45
Ice stove *105
Icebergs of Southern ocean........544
Illuminating pistols 223
Illumination. See Electric lighting.
ILLUSIONS.
—Mirror illusions *190
—New "vanishing trick" box.......*190
—Of travelling in an airship........481
—Size of persons greatly reduced....554
Improvidence, national 136
Indian cantilever bridge........*207
Industrial arts, Germany........550
Industrial chemist *249, 260, 262
Industrial laboratory supplies........245
INSECTS.
—Housefly, crusade against........547
—Moths 256
—Wasp *102, 109
Insurance, weather 69
INTERNAL COMBUSTION ENGINES.
—Aeronautic motors, American........ 6
Dangerous muffler 32
—Diesel engine *314
—Gnome rotary motor.........*117-119
—Knight valveless engine........*168
INVENTIONS.
—American backwardness 294
—Brief notes.....12, 33, 34, 58, 85, 126, 194, 195, 213, 232, 257, 281, 346, 373, 393, 413, 434, 435, 480, 561
—Europe in advance of America.....101
—Fortunes in small things........450
—Funny side of invention........*457
—Government inventors *257
—Manufacturers, encouragement of..125
—Perpetual motion *452, 453, 466
—Useless and foolish inventions...... 22

See also Patents; Patent office.
INVENTORS.
—British inventor; his decadence....125
—Discouraged by corporations........294
—Government encouragement needed.444
—Industrial progress due to........*448
—Notes.........14, 34, 35, 60, 85, 105
106, 125, 152, 172, 194, 214, 233, 258
301, 302, 321, 350, 351, 374, 394, 413
414, 481, 562
—Permanent exhibit in London.......413
—Plan to protect the poor inventor..187
—Sprague, Frank Julian............*363
Ions, isolation of..................*205
IRRIGATION.
—Canals and water power...........315
—Electrified artificial rain.......60, *173
—Reclamation of arid lands.........*144
Jaw, human, power of...............*493
Joints, woodworking *32

K

Kalgan-Pekin Railway *401-411
Keiss comet 109, 115, 119
Kerosene lamps, lighting attachment.*12
Knife for fruit picking.............*373
Knife from hack-saw blade..........*497
Knight valveless engine............*168
Kodophone *319
Kossel, Albrecht 244
Kubus of Sumatra....................454

L

Labor questions, laboratory solves....114
Labor-saving appliances, U. S. exhibit 198
Laboratory supplies, arrangement....245
Legagneux, French aviator...........337
Lake with roof...................... 99
Lamps, lighting attachment..........*12
Landsman's log aboard "North Dakota" ....*344 345, 356, *390 398, 430, 47[illegible]16, 528, 532
LATHE.
—Brackets, duplicated *497
—Cylinders, centering and reboring.. 32
—Reamer for *124
—Reboring engine cylinders..........*32
Legumes for soil improvement....... 9
Letter box, new.....................302
Letter box for street cars...........414
"Liberte," destruction 310
License, compulsory, for patents..... 14
Life, artificial *221, 236, 272, 285
Life preserver, illuminated......271, 414
Lighting for indoors...........*385, 397
Lightning conductor 555
Lightning superstitions 555
Lincoln, Paul M....................*448
"Lion," British battleship.....222, *230
Lippman's integral photography.....*164
Lithopone and its manufacture...... 17
Lobsters, mesmerized 553
Lock nut *580
Lock, secret *497
Locks, Panama Canal................*597
LOCOMOTIVES.
—Angle-Scottish express *425
—Automatic safety throttle..........270
—Average daily earnings.............427
—"Baltic" type *557
—Development 558, 559, 566
—Early inventions *558, 559, 566
—French locomotive development....*557
—Oil for fuel 295
—Safety devices in cab..............439
—Safety throttle 315
—Study in evolution................*115
London, population of...............226
London frost fairs...................573
Longitude determined by submarine cables *298, 305
Lumber injured by fungi.............143
Lumber. See Forestry; Trees.
Lupus treatment 82
"Lutine's" treasure 473

M

Machines and the workman..........496
Magic "vanishing trick"............190
Magnet, electro, for oculist...*569, *573
Magnetic separator for city refuse...*85
Mahogany, Colombian 47
Mail box for street cars.............414
Mail by aeroplane..............187, 313
"MAINE."
—Destruction likened to the "Liberte" 310
—Editorial comment 202
—Mystery to be solved...202, *210, *212
—Progress of raising wreck.201, 210, 212
—Pumps used in uncovering..........418
—Result of investigation............*578
Man, fossil remains.................369
Man, power of jaw..................*493
Manganese, influence on fermentation. 72
Man-power vs. horse-power...........455
Maple, flow of sap.................. 91
Maps, aeronautic 164, *226
"Mars" 438, 495
Mars, motions *572
Mass. Institute of Technology........ 27
Matches 425
Materials, chemical testing..........595
Materials, economical handling......*140
Materials, testing *246
"Mauretania" height of waves compared with *161, 165
"Mayfly," British airship...........333
McKee, Robert M....................481
Measles in monkeys..................115
Mechanism and mind..................332
MEDICINE AND SURGERY.
—Ambulance with removable lining.*581
—Artificial measles in monkeys......115
—Blood transfusion *123, 129
—Cancer research 49, 68
—Colodium dressing formula corrected 317
—Electromagnet for oculist....*569, *573
—Gall stones 110
—Heart diagnosis by electricity......*81
—Hospital cars *203
—Home-made aseptic gauze..........228
—Home remedies for burns and injuries 228
—Lupus, treatment 82
—Malaria, prevention of............. 31
—Music a cure for aphasia...........468
—Patent ruling for medical compounds 232
—Pellagra inoculation experiments...490
—Radium in medicine................. 72
—Radium Institute, London.........*224
—Smallpox in the U. S., 1909....... 47
Mental traits and eye color..........476
MERCHANT MARINE.
—American registration of ships.....119
—American shipping *44
—As auxiliary to navy............... 50
—Free ship bill......................119
—Free ships vs. discriminatory duties 295
—Higher wages for crews............417
—Navigation laws prohibit...........564
—Panama Canal makes necessary. *43, 564
—Plan to establish by treaty........227
—Preferential duties vs. free ships and subsidies *46
—Upbuilding through Panama Canal..270
—Russia plans to upbuild............417
—South American trade..............*48
—Ways and means................... 50
METAL.
—Cloth from 302
—Prepared for painting.............*392
—Vibrations of 150
METEOROLOGY.
—Agricultural status 382
—Airman's weather bureau........... 98
—"Anticyclone" 222
—Atmospheric pressure in prehistoric ages 319
—Hann's climatology 203
—1911 hot summer in Europe.........458
—In American universities...........343

—See also Aeronautics, military and naval.
Naval aviation. See Aeronautics, military and naval.
Naval review, comment...............507
Navigation perils through derelicts...*51
Navy and the inventor...............444
Necessity and invention.............. 22
Needle drill *433
Nieuport, Edouard 360
Nernst, Henry Walter...............*271
Nervous prostration treated by music.468
NEW YORK.
—Budget exhibit 332
—Electric exhibit in Grand Central Palace 378
—Firemen, college for..........*364-365
—Refuse disposal *551
—State barge canal..................277
—Subway problem 22, 470
NIAGARA FALLS.
—Compared with Victoria............203
—Plan to use, without marring......227
—Preservation 206
Night haze, self-luminous............ 99
Nitrogen and soil...........167, 507, 539
Nobel prize to Madame Curie.........467

O

Obdorsk salt lake.................... 99
Obesity, treatment of................171
Observatories, astrophysical *23, 37
Ocean steamers *52-55
Ocean swells, South Sea............. 75
Ohio River improvements...........*204
Oil conservation *142
"Olympic," description *8
"Olympic"-"Hawke" collision..290, *389
Opium problem in China..............186
ORDNANCE.
—Ammunition rooms 525
—Disappearing carriage, Emery......501
—Disposition of guns on warships, *318, 325
—Experiments on a caisson..........310
—Illuminating pistols 223
—Maxim, Hudson *491
—Range finder, Barr-Stroud.........*321
—Recent developments *520, 534
—Target practice *526
—Turrets on center line, standard...*516
Ore crusher, Edison patent........... 13
Ore-handling machinery *58
Ore transportation *58
"Oregon," U. S. S., compared with H. M. S. "Lion"...............*230
"Orion" *431
Osborn, Henry Fairfield...........*73, 79
Oxy-acetylene blow-pipe 294
Oxy-hydrogen blow-pipe *300
Oxygen production *103
Ovington, Earl L...................*313

P

Pacific phosphate industry...........419
Page, L. W.........................*257
Paintings locked to wall............*554
Painting, lithophone 17
PALEONTOLOGY.
—Atmospheric pressure in past geological ages 319
—Osborn, H. F......................*79
PANAMA CANAL.
—British-built dredger *405
—Difficulties encountered 270
—German criticism 270
—And merchant marine.........*43, 564
—Progress of work..................*597
"Pandora," cruise around the world. *28, 37
Paper money, materials..............237
Parasites and rainfall................227
Paris green as insecticide............ 57
Paris to Pekin in nine and a half days 38
Parthenon, new relic of..............162
PATENT OFFICE.
—History and growth................152
—New building needed.....*192-194, 445
—Perpetual motion machines........*561
—Priority of invention discussed....*446
—Veterans of the patent office.......450
—Commissioners and examiners....33, 35
173, 192, 234, 374, 393, 394
PATENTS.
—Compulsory license 14
—Confederate patent for breech plugs 561
—Edison roll patents................. 13
—Heany tungsten lamp cases.........393
—International validity 222
—Legal notes....14, 35, 62, 86, 152, 153
174, 194, 232, 351, 574
—Medical compounds 232
—Millionth patent 152
—Patent property, infringement and protection 444
—Plan to protect....................187

Pekin-Kalgan railway........*409-410-411
Perpetual motion *452, 466
Peruvian rain-tree 244
Petroleum. See Oil.
Phonetics, museum of speech........*553
Phosphate, American 110
Phosphates in the Pacific............419
PHOTOGRAPHY.
—Camera, ball clamp holder.........*412
—From aeroplane *404
—Integral photography *164
—Invisible ray photography..........167
—In railway work....................155
—Microscopic *412
—Miniature projection apparatus for legal photography *209
—Pocket camera 282
—Roentgen ray photography.........*426
PHYSICS.
—Isolation of an ion...............*205
—Millican, R. A...................*205
—Nernst, Henry Walter.............*271
—Radium bromide preparation.......560
—Thomson's discovery, editorial comment 570
—Thomson, Joseph John.............*571
PHYSIOLOGY.
—Artificial measles in monkeys......115
—Kossel, Albrecht 244
—Laboratory methods in the solution of wage problems...............114
Pigments, sources 96
Pinchot, Gifford *135, 137
Pipe and monkey wrench............*276
Pipe rest *281
Pipe stem, to remove when broken...433
Pistol handles for fishing rods......*373
Pistols, illuminating 223
Planer brace *191
Platinum, substitute 42
Plows, left hand..............118, 275
Plug, to remove from blind hole.....*392
Poles, preservation *229, *393
Poles surfaced with mica-concrete....427
Political laboratory 325
Porto Rico trade winds..............316
Meyer, George v. L..............511, 513
Postage stamp abolishment...........169
Postal cards, machine for printing... *5
POSTAL SERVICE.
—Abolishing postage stamps.........169
—Aerial service in England..........238
—Automatic mail exchange system..*434
—Mail by aeroplanes...........187, *313
—New letter box.....................302
—Street car letter boxes.............414
Potassium salts, manufacture........136
Potato pick-up *12
Potatoes, heredity 294
Power from sunshine...............*291
Pre-historic man 188, 545
Printing, Chinese government........427
Printing postal cards................*5
Primitive race of Sumatra...........454
Prandtl, L.........................*340
Psychological test for chauffeurs.....*29
Psychology and advertising.....*250, 251
PUMPS.
—Automobile 85
—Jeanesville double-suction 418
—Worthington patents 302
PURE FOOD AND DRUGS.
—Appointment of referee board.....*183
—Artificial preservatives necessary...101
—Food purity, simple tests.....*432, 439
—Wiley, Harvey W..................*95
—See also Food.
Pyramids, cost of building Cheops...171

R

Rabbits in Australia..................557
Race degeneration, American.........136
RADIUM.
—Curative effect 72
—New lode discovered................305
—Opening of institute in London....*224
—Radium bromide preparation.......560
—Radium engine 290
—Therapeutic agent *224
RAILROADS.
—Automatic brake 282
—Bridgeport railroad wreck.....114, 167
—Cause of accidents................. 74
—Chicago & Northwestern terminal..*80
—Cost of accidents..................169
—Eighty years of locomotive practice *115
—Fatalities due to trespass...........386
—Gasoline tool car.................. 7
—Hospital cars *203
—In Asiatic Russia.................. 38
—Miniature garden railways....*473, 474
—Oil as locomotive fuel..............295
—Pekin-Kalgan railway *401-411
—Pennsylvania terminal station......470
—Photography, use of................155
—Russia-Asiatic railroad 38
—Safety throttle for locomotives.....270
—Sitter viaduct *293
—Spike driving by motor truck......*454
—Steel for wooden cars..............294
—Track inspector's bicycle..........*207
—Ventilation of sleeping cars........105
—See also Electric Railroads.
Rain, artificial 60, 99, *173
Rainbow, odor of 209
Rainbows and halos..................255
Rainfall and parasites................227
Rain-tree legend 244
